

# How It Works

## You Save Time

Myconnect is an easy to use, free service for anyone moving home. We connect your Electricity, Gas, Telephone, Internet and Pay TV. Don't spend hours doing it yourself. Let us call you and arrange everything!

## Choose Your Own Provider

We work with the widest range of service providers so we can help you find the best option to suit your needs.

## 100% Australian Owned & Operated Customer Support Centre

Our customer support centre is located in Australia unlike some of our offshore competitors so there are no time delays or language barriers.

## You Have a Connection Guarantee

We guarantee your connection on the agreed day or we cover your expenses no questions asked.

## Arrange Next Day Connections

Maybe even the same day! We can connect Electricity and Gas on the next business day if we speak to you by Midday. In some areas we can arrange Same Day connections.

**myconnect**

**Call us right now and let us take care of everything for you!**
